I have just recently subscribed to NRL Live Pass on my iPhone, do I need to subscribe again on the iPad?

All new and existing subscribers can restore an existing active subscription on up to 10 compatible Apple / Android devices by using the restore feature on the NRL Live Pass section and logging in with the same Apple or Google ID used to make the initial subscription.

Note: In-App subscriptions can only be restored on multiple devices belonging to the same platform; iOS on App Store and Android on Google Play.

I've recently subscribed to Live Pass but the app doesn't seem to recognise that I'm a subscriber. What do I do?

On iOS

Check that you have a valid subscription In-App Store > Apple ID/Account > Subscriptions > Manage

Check that you have downloaded the NRL Official App from the App Store using the same Apple ID that has a subscription.

Launch NRL > NRL Live Pass > Restore and enter the same Apple ID that has a subscription and this should restore your subscription on the device.

On Android

Check that your device is linked with the Google Account that has a subscription under Settings > Accounts

Check that you have a valid subscription by checking the NRL Official App in Google Play Store Launch NRL > NRL Live Pass > Restore and this should restore your subscription on the device.

What should I do when I see a "Regrant Failed" message when attempting to restore a subscription?

There are two possible solutions to this problem:

1. The App was downloaded with a different Apple ID. You will need to log out and log back in through the Settings option on the Device.
2. It appears the download is faulty. Please delete and reinstall the App. You will need to use the Restore button, at the bottom of the subscription page, to re-link your subscription to the device.

What will happen to my paid Live Pass subscription if I take up the Telstra Live Pass offer?

For customers who signed up to their paid subscription within NRL app, if you redeem the NRL Pass and you have already signed-up for a paid subscription through the App Store or Google Play, you will still need to cancel your subscription via the relevant app store (App Store or Google Play).
